Naveen Rajasekara

Software Engineer (Game Developer) at ZinCaT Technology
Kandy, Central Province, Sri Lanka

Summary

I have been learned Java and C# programming languages. Apart from that, I have skills in Adobe XD and Adobe Photoshop. As for the Web development skills, I have good knowledge of HTML5 and CSS (beginner for react/angular). Currently, I am learning javascript and Bootstrap as well. During my internship time, I have built web games (gaming platform games) (on the web browsers), and mobile games(on android/ios) with our company gaming team.
