# Lokini Kunalan

Software Engineer at IFS Sri Lanka  
Colombo, Western Province, Sri Lanka

## Summary

As a Software Engineer at IFS R&D International Sri Lanka, I work in an agile Scrum environment, developing high-quality software solutions using C# .NET frameworks and related technologies. I have 2+ years of hands-on experience in this role, where I contribute to the team's success through collaborative efforts, project coordination, and design. I have also participated in multiple research publications on image processing and deep learning techniques, demonstrating my interest and aptitude in these domains.

I hold a BSc (Hons) degree in Information Technology specializing in Software Engineering from SLIIT, where I learned the fundamentals and principles of software engineering. I am committed to ongoing learning and professional growth, and I enjoy exploring different development languages, tools, and technologies to expand my knowledge and stay up-to-date with industry advancements. I am open to new opportunities, collaboration, and connecting with like-minded professionals who share a passion for development. Feel free to reach out if you'd like to connect, discuss development-related topics, or explore potential collaborations.
